FIVE CENTS

OUR ROLLING STOCK.

You can get along without collar and cuffs, but you can't get along very well. They are exceedingly useful and when they happen to be all right they are exceedingly ornamental. If they are not faultless you might almost as well be without them. Nothing gives itself away, so to speak, as quickly as a damaged collar or a frayed cuff. People will notice them when they don't notice anything else about you. Why not wear good shirts, good collars, good ties, good underwear, good gloves and hose, when we can show you the very best English, French, German, and American goods at the same prices you have to pay for inferior articles anywhere but in an exclusive gentlemen's furnishing and clothing house. There is some satisfaction in wearing our new office shirt; it's made to wear, and fit and not cut your throat with your collar, and costs only \$1.25. All the leading makes of W. G. & R. Skeltons, Took's & Mosser, shirts, collars, cuffs and night shirts.

A CASE OF BRUTALITY.

The Offender Sent Up For Trial.

The worst case of cruelty ever yet brought before the authorities here came before P. M. Todd on Tuesday. For some time the neighbors of Mr. Blizard near Heyfield thought that he was cruelly treating in many respects a boy about 6 years of age, he brought from Ontario about 14 months ago. At length they concluded something should be done to save the youth, and a complaint was lodged by Mr. Stinson, a near neighbor and Blizard was arrested by Constable Wilcox, and brought to the city. A few days previously however the Crown sent out Dr. McDermid to look into the case, and on the Doctor's recommendation the boy was placed in the hospital where he is now under treatment. The Doctor, in evidence said the boy appeared to be the next thing to starved for some time and he had on his person large sores a couple of inches in diameter, and sundry welts from the lash of a horse whip, which Blizard in court acknowledged applying freely. The evidence in court went to show that for the past three or four weeks the boy had been forced to sleep in the horse stable on wet straw, and with little other clothing around him. During the trial the feeling against Blizard was most intense, and the evidence straight and convincing that the Beak sent him up for trial. The probabilities are the brute will get a good dose of penitentiary which such inhuman creatures fully deserve. A case similar to this was tried near Moosemin a few weeks ago in which one Macdonald figured, and he got the full penalty of the law.

Excellent Engineering.

Detective Foster feels quite frisky over a bit of excellent engineering he recently did. As we reported last week, a few days ago some guns were stolen from Brains, and other effects from other citizens. Foster put a description of some of the stolen property in the Free Press, and a couple at Morris notified him some of the traps were offered for sale there. Foster ordered the arrest of the parties offering the goods, when "Jack Ainsworth" and a chap named McKenzie, two Americans, were gobbled by a special constable there. Foster boarded the 7 o'clock train Monday for Morris but before he got there McKenzie had broke away from the police at Morris, and but Ainsworth remained. The latter was brought to this city, had interview with the Beak and was remanded for 8 days. No doubt he will get a dose of penitentiary. The plan of the thieves were cute but those of Foster, which we do not care to give to the public, were equally clever.

Educational.

By direction of the Department Institute will be held as follows:—
Brandon, May 12, 13, 14, H. S. McLean and W. A. McIntyre, B. A.
Neepawa, May 19, 20, 21, T. M. Maguire and W. A. McIntyre, B. A.
Birtle, May 26, 27, 28, S. E. Lung, B. A. and W. A. McIntyre, B. A.
Glenboro, June 2, 3, 4, E. E. Best and W. A. McIntyre, B. A.
Portage la Prairie, June 9, 10, 11, T. M. Maguire and D. McIntyre, B. A.
There's according to the last returns a school population of 28,978 in Manitoba with a registered attendance of 27,871. The average attendance was 12,433. There were 863 teachers employed, 88 holding first class certificates. The highest salary paid was \$1000. The average for cities and towns was 474, and for rural districts 651.

Serious Accident.

Portage Liberal—The deadly coupling pin has again been the cause of a very serious if not fatal accident at McGregor station. The injured man is Conductor Fraser, who was ordered to take a special freight from Brandon to Winnipeg yesterday morning. Mr. Fraser had been for a number of years brakeman on this division and this was his first trip as conductor. Being an experienced and steady man the accident that befell him cannot be the result of recklessness. When the train was shunting at McGregor a wot 10 o'clock yesterday, Fraser had occasion to draw a coupling pin. He was hanging on to the steps at the end of a freight car and tugging at the pin when, in some way he lost his hold and fell between the rails. The wheels of four trucks passed over his arm crushing it to a mass of powdered bone and fleshy pulp, the flange of the wheels breaking his shoulder on the ties. Dr. Pennyfather was summoned and it was thought best to take him to the Winnipeg hospital, where he arrived about two o'clock in a very precarious condition. Dr. Milroy accompanied him from the Portage. The unfortunate man has a wife and six or seven small children dependent upon him.

The following are officers of the Clan Gordon in this city:—
Chief, J. C. Sinclair.

Eggs For Belgium.

Montreal has an enquiry from Belgium for Canadian eggs. It was made some days ago and the letter was sent to a Montreal dealer for reply as to further trading. On the gentleman who received the letter being asked if Belgium eggs were not sent to the English markets in large quantities he replied: Yes, but there is a visible quality in Canadian eggs which the Belgium eggs have not. This he presumed was the reason of enquiry.

Bring Your Pets.

The breeder who does not exhibit at the Wheat City Show, but claims he could have won had he shown his birds, and that he had better birds at home, is entitled to no consideration. If his birds are what he claims them to be, he should be there and face the music like a man, and accept the judges' decision as to the merit of his birds and that gives you the story in a nutshell. Come and let us see you and help to make a good show.

Opening of Navigation on the Great Lakes.

The C. P. R. Co's steamer left Owen Sound on April 29th, being followed by the others steamers of the fleet on May 3rd and 4th.

The days of sailing from Fort William have been fixed the same as last year namely: Tuesday, Thursday and Saturday direct connection being made with the train leaving Winnipeg the previous evening.

The patronage which the new steamer "Manitoba" received last year and the large increase in passenger business attributable to the splendid accommodation afforded by this ship as well as the "Athabasca" and "Alberta" decided the company upon putting the older vessels into dock and provided them with the latest improvements with which the "Manitoba" is fitted.

Accordingly the Alberta and Athabasca have been in the dry dock during the last three months and have got a complete overhaul. The cabins have been painted in white and gold, and the decoration of the ceiling made to correspond with the walls, making the apartments particularly bright and attractive while the electric light peeping forth from numerous niches produces an effect which is very pleasing. The saloons and staterooms have also been supplied with new carpets of an excellent quality.

A promenade deck covered by an awning with which the Manitoba is provided and which made her so popular with the travelling public has also been built along the entire length of the Athabasca and Alberta so that passengers can remain on deck and be completely sheltered from the sun or rain.

Altogether these three great vessels comprise the finest fleet on the Lakes.

No steamboats on inland waters approach them in size, architecture, strength and capacity for rapid transit while the comfort and luxury with which they furnish passengers has made this the favorite route to the West and to the Northern States of the Great Republic.

The favorite steamer, Canada, which has been running for the past few years on the upper lake route and which has been purchased by the Port Arthur and Duluth Steam Packet Co., will this year run between Port Arthur and Duluth in connection with the C. P. R. steamers and trains leaving Port Arthur every Monday and Saturday at 7 p. m. and leaving Duluth on Tuesday, Thursday and Sunday.

WOODWORTH.

Farmers are getting along with their seeding rather slow this spring owing to the disagreeable weather. Yesterday's snow was a great drawback the ground being unfit for cultivation the rest of the week.

Mr. Robt. W. Mitchell is the happy father of a charming little daughter.

Mr. Arch. Stevens sustained a heavy loss last week. In some way his fine imported stallion got away in the stable, strangling himself to death. He purchased the animal a short time ago, paying a high figure for him, and at this season feels quite a loss to Mr. Stevens.

Quite a number of our farmers took part in the spring show held at Hamilton on Tuesday last.

Mr. Geo. Rankin has just completed the erection of one of the largest barns in Manitoba. It is needless to say that community is credited with having some of the finest buildings in the province.

Mr. Geo. Lewis, late of Virden but formerly blacksmith at this point, has opened out a shop at Penrith.

Mr. Geo. Robb, our genial blacksmith has commenced to break and build on his new quarter section 1324.

Miss Jennie Johnson, of Griswold was visiting her parents on Sunday last.

Two of the Leitch Bros of Oak Lake, were in the settlement this week.

Wild geese are flying in all directions this cold weather.

A very well attended meeting of church people was held here on Thursday last. Rev. J. A. Bosky presided. The Rev. Mr. Rogers was also present. A very good and reliable guarantee was offered to Mr. Bosky, who was asked to devote his whole time to that district.

A vestry was also appointed and some other business transacted. The church was also repaired and a very good and reliable guarantee was offered to Mr. Bosky, who was asked to devote his whole time to that district.

Easter services in this district were very bright and well attended and without a doubt a church ere long be erected, if the present enthusiasm lasts.

A NEW DISEASE.

It Is Known as "Typewriters Insanity."

And Affects Those Who Manipulate the Typewriter—What a Learned Doctor Says Regarding the Affliction.

Pretty typewriters in danger of losing their reason! A new mental disease has been noticed by many physicians in the past few years, and it has increased with the use of typewriters in all departments of commercial and professional work.

It usually begins with a slight but persistent headache. Then gradually the memory fails, so that persons affected become absent-minded to such a degree that they are scarcely to be trusted alone. Dyspepsia, with all its horrors, follows, and finally the patient becomes unfitted for all mental exertion.

This is a description of typewriters' insanity given to a reporter of the New York Morning Journal by Dr. Charles Higgins, of Brooklyn, who has had several such cases under his charge.

"The disease is as real as writers' cramp," the doctor said, "although when its cause was first suggested to the use of the typewriter it was laughed at as absurd. People laughed at writers' cramp in the same way twenty years ago."

"How can the use of a typewriter cause dyspepsia?" asked the reporter.

"Well, to explain that," said the doctor, "I should have to go over all that we know of that marvellous telegraph plant which, every human being carries about with him, known as the nervous system. Specialists who have studied nerve diseases discovered years ago that there were what we now know as reflex actions. That is, that a condition which affects one portion of the body produced a similar or opposite effect on another portion just as a telephone wire is made useless by the induced current from an electric light wire. Perhaps the most familiar example of this is the fact that a piece of dirt or dirt in an eye will cause the other to smart and become inflamed through sympathy."

Here the doctor produced diagrams of the keyboards of half a dozen of the prominent makes of typewriters.

"Now, as you see," he went on, "these keyboards consist of round or hexagonal keys, about half an inch in diameter. They are white with black letters in the center, and they stand out against the black background. Many of these keyboards are eighteen inches long by a foot deep, and most of them are larger than the page of an ordinary book. Now I will make a little diagram to show you where the great strain on the nervous system comes from."

Here the doctor drew a rough sketch of the human eye in section and of the keyboard of a typical typewriter.

"You can easily see that in the effort to perceive all the keys at once, when working rapidly, the eye endeavors to adjust itself to a focus that will cover the entire keyboard. But this is impossible, so the mirror at the back of the eye, called the retina, is constantly changing the focus in front of the eye so that it can get the objects distinctly impressed upon it."

"In the diagram I have only shown four different focuses," continued the doctor, "but when you multiply them by the number of keys on the four rows and count that the eyes are between the keys are about an inch lower than the tops of the keys, you can imagine the vast number of focuses that reach the eye and the amount of work the lenses of that delicate organ must do to keep pace with them."

"Prof. Hayes, the expert of Philadelphia," Dr. Higgins went on, "has estimated that in five hours' work on a typewriter an ordinary expert operator will have to change the focus of the lenses of the eye at least forty-seven million times."

"Now, the human eye is never intended to do this," asserted the doctor, "and the strain on the little muscles which move these lenses is enormous. It soon has a reflex action on the nerves, and this finally irritates the brain to such a degree that it produces typewriters' insanity."

"Is there no cure for this trouble, doctor?" asked the reporter.

"Oh, yes!" he replied. "First will effect a perfect cure, and sometimes a pair of eyeglasses, suited to the eyes that are naturally perfect, afford a great relief."

"Could you suggest any improvement in typewriters to lessen the strain on the eyes?"

"I think I could," concluded Dr. Higgins. "A typewriter with a key board like a piano or something approaching it would be a wonderful thing for this trouble. Pianists become expert on a straight key-board, and I can see no reason why typewriters should not."

A LITERARY COLLECTION.

WALT WHITMAN has had his tomb constructed under his own personal supervision in Hawthick cemetery, on the outskirts of Camden.

Mrs. AMELIE RIVES-CHASTLER has had the crib and ends her command of the English language utterly inadequate to any attempts to describe it.

The friends of Guy de Maupassant are in fear of his becoming insane, as the result of a disease of the nervous system from which he is suffering. He has been ordered to take complete rest.

Mrs. OLIVE BILEY SEAR, daughter of William H. Sear, and his private secretary, died last evening at the age of thirty-four years. Her death is now attracting frequent attention to the newspaper press.

Edward Ross says that there are only 60 authors who earn \$20,000 a year with their pens, and these lucky ones are William Dean Howells, Robert Louis Stevenson, Mark Twain and Mrs. Henry James. The world's best-selling author in eight years in royalties from "Ben Hur."

WAWANESA.

The big storm on Thursday left considerable snow in town.

Mr. John T. Packham, friend of Mr. Leslie Smith, has purchased a farm.

The member, Mr. Graham will again ask the electors of South Brandon for their suffrages.

F. A. Tamlyn has a big, good-natured dog, and Isaac Storey has a dog which we think will bite.

Trains are running very irregularly on the Northern Pacific. Their time card is no use to the public so we take it out of the paper until they get running properly again.

James Wright and W. H. Bateman called at the Times office on Friday last. They report snow too deep for good sleighing and that seeding is well under way.

Blanchard & Co., Bankers, of Carman, are doing a large business. They are connected with the Union Bank of Canada. Mr. Blanchard is expected here in a few days.

Rev. Mr. Corrie, of the Presbyterian church, preached on the 24th inst., and in the evening his discourse was also learned and entertaining.

Indications are that Wawanesa is to have a bank. The charter was granted by the Local Government on the system outlined by Dr. Orton ex-M.P. for Wellington. F. O. Fowler, Reeve, will be manager here.

Messrs. James Downey, W. T. Storey and George Ross were appointed deacons by the members of the Presbyterian church and installed in office by the Pastor, Rev. Mr. Curry and two other clergymen, on Sunday 24th inst.

A new arrival in the person of a Tonsorial Artist, who has lately tidied up the Miami people, has rented rooms in town. This person, an experienced barber and will no doubt please his customers as he comes well recommended.

A ratepayer's meeting was held in Ricker's Hall on Thursday evening last, for the purpose of appointing a committee to expend the money raised for town improvements. Messrs. W. T. Storey, J. M. Reed and Joseph Chambers were appointed.

We are informed J. H. Barkwell, Jas. Downie, James Elliott, R. B. Fawcett, W. H. Girling and John McKinnon are a few of our best farmers and they all keep more or less good grade cattle, and horses for sale. Their post office address is Wawanesa.

J. B. Rutherford, of Stonewall, a large property holder and a man highly respected by both political parties, has accepted nomination to oppose Speaker Jackson for the Legislature. Speaker Jackson had but a small majority over Rutherford four years ago.

There are a number of farmers who have horses raised in the country, also good seed grain for sale. We mention the names of Mr. McNaughton, J. Stephens, C. R. Hastings and J. McFadden, of Methven, and J. A. Martin, James Wharton, Thomas English and George Reynolds, of Minnewawa.

Mr. Robin has accepted the Conservative nomination for Mayor of Toronto. We think Mr. Duncan, the Reform candidate has at least a chance, and possibly better chances for being elected considering the rambling and unthankful character of Robin's supporters there. Mr. Robin would do well to quit Morden and give Duncan the place.

A large representative meeting of electors met on Saturday evening and decided to petition the municipal council to submit bylaws offering a bonus to a roller flour mill to locate here as mentioned in last issue. Smith & Sherriff, Brandon, are about building a large agricultural implement warehouse here. Wm. Henderson will be manager.

An interesting fashion among Chinese women in the southern part of California so says a Wawanesa farmer, is a patent fixture that they use on a hot day. These females in that country often find it difficult in extreme hot weather to keep cool. So a thoughtful inventor made a rig to supplant the old fashion of hoop skirts. In this an elastic set of springs are so arranged that by giving it a gentle squeeze the springy circular form of the skirt is flattened out, and the female may have on out along with it. The atmosphere has thus almost an uninterrupted chance to recommend the invention for the purpose intended, particularly the easy costume causes a current of air to be set in motion. The same authority goes on to state an unfortunate occurrence. As a funeral one day was passing, five Chinese ladies, including an old aunt of one of the party, were taking a constitutional walk when without any intention at all on the part of the ladies the throat of one of the females squeezed so suddenly and enlarged costume so suddenly rearranged became filled up by the blowing wind and carried off like a parachute or an umbrella is sometimes snatched by an unexpected current of air. The excitement did not end here but on the contrary had just commenced, for all of her companions unthinkingly squeezed the instrument and it went off like chickens suddenly scared by a house dog or a boy trying to experiment with a parachute, lighting occasionally on the ground by the over fences to be picked up again by the wind at its pleasure. Those attending the funeral heard a late dinner from the ladies' most what turned out to be a deafish husbandman who had become affected by falling out of bed during a heated discussion with his wife, over which should have that years' profit of human crops. The people in the funeral procession did not understand this, and in the excitement, the horses having the dead man in the coffin ran away, and as the wagon came in contact with a telegraph pole a general explosion of "Oh my" was only one thing, for there was sound of this horn and the discomfiture of these Chinese ladies and their old maid aunt. There was more; the man in the coffin had been taken

from his residence to the morgue the night before, supposed to have died from the verdict of a coroner's jury and the noise of the horn in calling the dead man to dinner had wakened him up and as he miraculously escaped injury by the runaway, he was the first to help rescue those ladies and their old maid aunt from their unhappy position, caused by their inexperience in using the new American invention.

The procession turned back many one horse buggies turned two and three times around. Many bonnets rested on the shoulders that would otherwise have been blown off, had it not been for elastic ties. Friends of the would be bereaved family subscribed toward digging the grave and the insurance company paid the undertaker his charges.

No scarcity of hay or pure water. Wood and coal abound in the district.

TERMS OF SALE.

The lands will be put up at an upset price of \$8.00 an acre and sold to the highest bidder. One tenth of the purchase money to be paid at the time of sale. The balance in nine annual instalments with interest at six per cent. Deferred payments payable on the 1st November each year; 1st of such payments due 1st November, 1893. This gives eighteen months to make up second payment. Coal and other minerals and right of way reserved.

C. P. R. EXCURSION RATES.

Intending buyers can purchase tickets at Winnipeg, Portage la Prairie, Brandon, Moosemin, Regina and Moose Jaw for the trains leaving Winnipeg on April 29th and 30th, and at Calgary on April 28th and May 2nd, at a single fare for the round trip. The tickets will be available for return by any train leaving Edmonton up to May 18th, the tickets being good for one continuous passage only in both directions. No stop overs allowed. Should the holders of these tickets purchase lands from the company at the auction sale, the amount paid for such ticket will be credited on the land purchased.

For maps of the Edmonton lands and the Saskatchewan Valley apply to the auctioneers, FITZGERALD & LUCAS, Calgary, or to

CREDIT DISCONTINUED.
 The undersigned begs to tender his thanks to the public in general for the liberal patronage they have given him, and to announce at the same time, that for the future his business will be continued on the cash basis only. He has experienced that credit makes business much more expensive to all concerned. The business man and the mechanic must charge more for their wares and works, and the agriculturist more for his receipts. He has therefore resolved on collecting at once all outstanding accounts that are collectable, and on bringing work from hand on to cash. He is ever ready to turn out the best work that can be done in the country, by the most skillful workmen that cash can engage, and at the lowest prices for the benefit on the spot. This system of business will prove the most satisfactory to all concerned.

NAPINKA.

Mr. H. Crowell gave a house warming to the young people. He erected a new house on his property and thought it would be best to open it in this way. Every one present was well pleased with the evening's amusement. Mr. Tweedle is again able to resume his work. His sickness has told on him in strength. We are sorry to hear that Miss Anderson, who is lately from Ont., is suffering from a gripple. Mr. Richardson, from Kewatin, has purchased part of 23-4-25, and is putting on a house. Mr. Colly, of Kewatin, who has a farm north of Mr. Richardson's, intends building in town. Seeding is in rapid progress, the cold wave of the past few days rather dampened the farming spirit.

The only variation in quality which will ever be found in "Myrtle Navy" tobacco is in the degrees of moisture which it contains. Tobacco is a very ready absorbent of moisture, and in unusual states of the weather it may become a little too moist or a little too dry to suit the taste of some. This is a minor matter, however, as the essential quality of the tobacco is not changed. Its combustion is a little slower or a little faster according to the degree of moisture, that is all. The darker the plug the greater the moisture, and many prefer the dark. In each case, however, the preference for either can be met.

Consumption & Lung Difficulties.

A ways arise from particles of corrupt matter deposited in the air cells, by impure blood. Purify that stream of life, the poisonous matter, and like a crystal river flowing through a desert, will bring with it and leave throughout the body the elements of health and strength. As the river, leaving the elements of fertility in its course, causes the barren waste to bloom with flowers and fruit, so pure blood causes the frame to revive in strength and health, and bloom with unfeeling beauty. All Medicine Dealers sell Dr. Morse's Indian Root Pills.

Mr. J. A. Macdonald, of Cavalier county, Dakota, just south of the boundary line, says that there are over 100 families leaving his county for Manitoba. The most of them are Ontario farmers who have tried Northern Dakota for a few years and are heartily sick of the taxes and other drawbacks. He also states that loan companies have about ceased to loan money on the security of land in the northern portion of the county.

Those Forgetful Husband's. "John Goodrich" exclaimed that poor gentleman's wife, "do you see this letter lying here in the card-receiver?" I wrote it a week ago and you haven't mailed it yet." "Well, it is my fault, Mary. I didn't know anything about it. You didn't give it to me." "What difference does that make? If I had given it to you, you would have carried it in your pocket all this time. You might have seen some one to remind me to give you my letters to mail." And then Mrs. Goodrich said, "I wrote a postscript explaining that matter, that the letter was the dearest because John, as usual, forgot to mail it."—Buffalo Express.

He Saw Her. Mr. Slightfoot: "I have not met you for a long time, but just at this moment she is engaged—over there at the piano." Mr. Slightfoot (with affected enthusiasm): "Ah, I see. She is that goddess-like beauty who is playing an accompaniment for the mountain of flesh who is sitting there." Mr. Hansome (stiffly): "My wife does not play." She sings.—N. Y. Weekly.

ALL SORTS.

Among the most extraordinary pieces of symbolism known to have been used by the early Asiatics was a figure of a donkey's head used as a representative of the deity.

Thin flat pieces of iron shaped like a letter S and frequently seen on the walls of old brick buildings, serving as girders, are said to have been old-time symbols of the sun.

The oldest piece of cloth in any American collection is that possessed by the Brooklyn Institute. It is a piece of coarse Egyptian linen, not unlike the mummy cloth of the present day, and is supposed to be some six thousand years old.

The opal was once looked upon as a thunder stone, and although many women now appear to have strong superstitious prejudices against wearing one, it was in bygone days held in the highest estimation, for it was supposed to combine the virtues of several other gems.

JULIA and Mary Howard, twins, of Wilkesbarre, Pa., were born sixty years ago. They had always lived together, and they died within an hour of each other—one of pneumonia and the other of dropsy.

THERE was no coffin in Baltimore large enough to contain the remains of C. G. Pickett Nelson, the colored giant who died recently, and one had to be made to order. As completed, it measured eight feet ten inches in length and two feet four inches wide at the shoulders. It was two feet deep.

WOMEN OF THE ARISTOCRACY.

QUEEN VICTORIA pays at the rate of \$1.25 a mile when she travels by rail, in addition to first-class fares for all the party, servants included. She has a saloon carriage that cost \$50,000.

QUEEN MARGHERITE, of Italy, has in her extensive collection of gloves, boots and shoes, worn at different periods in Italian history, what are declared to be the sandals worn by the tyrant Nero.

The young Princess V. Kalanoid, heiress presumptive to the Hawaiian throne, is a native 16-year-old miss, rather pretty and chic, but just such a girl as can be seen in any dry goods store measuring ribbon or shouting "cash!"

The prince hereditary of Meiningen, who was so beautiful in her youth that she was known as the "Venus of the Hohenzollerns," has been one of the high personages abroad who has suffered lately from the gripple. She is Emperor William's oldest sister.

ON MANY SUBJECTS.

The average size of an American farm is 610 acres. The value of Kansas farm lands is said to have actually increased twenty-four per cent. in the past twelve months.

The state capital at Austin, Tex., ranks next in size to the capital at Washington. It is 560 feet long, 285 feet to inches at its widest part and 311 feet high.

EQUAL TO THE OCCASION.

A Widow Who Was Not Disconcerted by Being Stared At.

There is one peculiarity about the gentler sex which crops out in the streets and on the cars to the great annoyance of its victims.

It is the way women have of staring at each other, at their clothes, their hair, their figures, etc., and all with a cold and fishy glare that is exceedingly disconcerting to the "starees." A young and good-looking woman will enter a street car, feeling pretty well satisfied as to her personal get-up. She wears a self-satisfied, calm air. In an instant every other woman in that car is gazing at her with that calculating, wonder-lug-much-she-paid-for-her-bonnet expression. And they continue to stare, while the object of their scrutiny grows self-conscious, red and uncomfortable. She wonders if she's not doing the matter. Has she got mud on her nose? Is one cheek redder than the other? Is her hat on crooked? Then turning her attention to the masculine passengers she sees that they are not regarding her as if she were a freak, and she comes to the conclusion finally that they only stare for the sake of staring. They removed their stares.—Chicago News.

AN INDULGENT WIFE.

She Very Considerately Allowed Her Husband to Succeed.

Mrs. Wiley was one of the people who enjoy more than anything else, managing other people's affairs. She was such a power in her family and among her friends that she had at last come to believe that very few things were done without her advice and consent, either in her own home or elsewhere.

As she grew older her way of mentioning the control she exercised over everybody within her reach became more and more decided, and was now often the occasion of no little amusement.

Her husband, a very old gentleman, some ten years her senior, and quite feeble, had frequent attacks of sneezing, which did not seem to presage any cold, or give him the least discomfort. Often he sneezed sixteen times in succession as he sat in his big arm-chair, reading the paper laboriously.

"Your husband's quite a hand to sneeze, Mrs. Wiley, isn't he?" said a little seamstress, who was sewing for the family one day, when the old gentleman had had several of his longer attacks.

"Yes, he is," admitted Mrs. Wiley, "and for a long time I used to reason with him about it, and had him pretty well broke of the notion. But now he's considerable old, and he ain't got much to occupy him, and sneezing kind of takes up his time; and so, for when all's said and done, it's a harmless kind of habit!"—Youth's Companion.

SUCCESS IS GENUINE.

It Requires a Peculiar and Distinct Endowment.

It seems as if success were a talent in itself, dependent, it is true, on other qualities in a greater or less degree, but having, nevertheless, a separate and distinct individuality. Some people quite wrongly call this quality "luck." It is quite untrue, however, for although of course in many instances a fortuitous chain of circumstances may make or mar a man, as a rule the successful person generally owes his or her position to some intrinsic merit to the talent, in short, of "getting on."

It is not cleverness only; it is certainly not genius; it is not even perseverance, necessary as that quality may be, although any or all of these properties may be found in a successful man or woman. It is perhaps the happy faculty of seizing the right moment of starting when the iron is hot, or that will cause the tribute which is generally ascribed to the English, but which Americans certainly have their full share of, the courage that "does not know when it is beaten."

However we may try to discover its component parts, this subtle quality defies analysis, and can never be taught, or learned, or earned, and we try in vain to solve the mystery of why some people succeed in everything they undertake and others fail.—N. Y. Tribune.

CHICAGO STORE!!

LOCAL WS.

To-day is Arbor Day.
Miss Kirchhoff left for her home in Ireland 1st week.
H. R. Cameron is going to run for Alderman in Ward 3.
The law society has elected Mr. Daly a member for this district.
Mr. Atkinson of London, Ont., was in the city last week.
The Hon. J. A. Smart is again the Grit nominee in the city.
The quarterly sitting at the Brandon County Court took place on May 6th.
A new paper called Fated and Fiction is now being printed in Winnipeg.
Mr. J. W. Sandison, the bonanza farmer will crop 3,300 acres this season, 2,500 acres in wheat crop.
Winnipeg has had a \$75,000 fire. The Prince of Wales Hotel and the Salvation Army barracks are in the ruins.
Mr. J. H. Leech left for Winnipeg last week to take his L. L. B. examination at the university in Winnipeg.
The Chan Gordon, after instruction on Thursday night, played hooch with the bivalves at Mrs. Stripp's.
A couple of duifers cooled themselves in a fire fight to the rear of the Queen's Hotel in yesterday's storm.
Mr. R. G. Macdonald has passed his first exam for Attorney, and is now a fully fledged practitioner.
J. A. Christie's mill began operations on Thursday last. He has over seven million feet of logs on the way which will keep the concern running till next fall.
Mr. Jukes, of the Imperial Bank here, made an attempt to climb the North Pole last week. He got as far as Prince Albert and inspected the branch of the bank there.
The public will regret to learn that Mr. R. B. Hetherington, of Elton, lost a horse, born and bred, and 250 bushels of wheat by fire a few days ago entailing a loss of over \$700. In hard times this is considerable for one farmer to lose.
The Hon. James Allan Smart could not find an acre of land in Brandon good enough to draw a pen for an addition to the skyline. He had to give the job to a Winnipegger. Of course Messrs. Shillinglaw and Marshall will vote for him for his kindness.
Mr. Palmore will, since the commencement of the Experimental farm at Brandon, be in charge of the garden and forestry department has taken hold of the Brock nurseries at Brandon. He was well known as one of the most experienced and successful men in the service of that department, and in his capable hands this business should be a decided success as well as a safe place for intending buyers. Nor West Farmer.

The Church of England people at Shoal Lake are about to erect a church at that place.
The first number of the Patrons' Advocate printed in Winnipeg is to hand. It is useful to the farmers.
Messrs. D. McDonald of Winnipeg, and D. M. McMillan left for a trip to Southern Manitoba last week.
The Conservatives of Dennis will meet at Virden on the 21st to bring out a candidate to hold the provincial secretary.
Arthur McInnis has returned to the city again after taking a successful course at the Philadelphia dental school. He will practice with his brother Dr. McInnis.
A C. P. R. brakeman named William Armstrong from Fort William was literally out to pieces at West Selkirk on Monday morning by a freight train.
R. F. Lyons, one of Carberry's staunchest men is Norfolk's Conservative candidate and he is as certain to be elected as the sun is to rise on polling day.
Opponents of the Greenway Government from any part of Manitoba who are eligible electors can have the necessary declarations made out at Macdonald's Committee rooms if they happen to be in the city.
Oswald Spence, the man who tried to murder Mr. McArthur in a church at Whiteside a few weeks ago, after a fairly long difference has been sentenced to 10 years penitentiary.
The Rapid City Reporter says: The Baptist congregation of Rapid City have extended a call to the Rev. Mr. Gignon, of Wolfville, N. S., who is now finishing his course at Acadia College and is expected here about the first of June.
The vice-president of the L. C. A. of Landsdowne will call their friends together in each township on the 16th and select delegates who will meet at Griesbach on the 17th to bring out a candidate in opposition to the government. There ought to be a full turn-out.
Mrs. Elliott, who came from Winnipeg to visit her brother Mr. J. A. Carwell, at Douglas died suddenly at the latter place on Monday. Her child that was with her died a few days before this ending the residence of Mr. Carwell with a sadness that his many friends, and acquaintance will duly regret.
Mr. T. M. Maguire, who was till lately a teacher in one of the Brandon schools, and who lately received the appointment of inspector in Manitowish district. Vacated by the Rev. Mr. Wolfswold, will start at the work very shortly. Mr. Maguire is a very competent man and will do full justice to the work entrusted to him. If the Local Government is doing no other good, it is giving expression to the proper principle in selecting inspectors out of the teaching profession only.

STILL LEAD IN PRICES

And will not be undersold. This is why they do a rushing business. If you want tea, call and try our superior for 40c at 3 pounds for one dollar. It beats them all for fine flavor. We will give special bargains to those buying from 25 to 50 pound lots, as we have in the past in order to reduce our large stock. We still sell 2 cans of tomatoes, corn, peas, beans, pumpkins or salmon for 25 cents, and canned fruit as low as 20 cents per can. A very superior soda biscuit, 3 lbs for 25c. All kinds of California evaporated fruits on hand, cheap. A fine line of new raisins, currants, figs and prunes away down. Also a lot of beautiful dates at 12 1/2c, and for soaps, they are cheaper than ever. We keep a full line of flour, all grades, very cheap for cash. All kinds of meal, potatoes, butter and eggs kept on hand. We pay the highest market prices for farmers produce and will not be undersold. We thank you for your large patronage during the winter, and still expect greater things for the future. Come on; we will try and serve you promptly as we have more help now. Don't forget the place—Symington's old stand, 10th St. Telephone No. 54.
